"Stand Up And Be Counted," our 2009 survey, made sure the voices of Massachusetts artists of all disciplines were heard and helped to change policies to benefit our communities. If you are a Massachusetts resident and an artist of any discipline, maker or creative entrepreneur, you can make a difference by participating in our expanded follow-up survey.

## TAKE THE ARTISTS' SURVEY

Your response will be kept completely anonymous. We will share the results with the economic development advocates, policy makers and you!

Funded in part by a grant from the Blue Cross Blue Shield of Massachusetts Foundation, the Surdna Foundation and private donations. This survey was developed by the original Stand Up And Be Counted team in collaboration with municipal and state arts and economic development agencies and creative economy advocates.
